## DETAILED ACTION

### *Priority*

1. This application appears to be a division of Application No. 09/947,210, filed 09/04/01. A later application for a distinct or independent invention, carved out of a pending application and disclosing and claiming only subject matter disclosed in an earlier or parent application is known as a divisional application or "division." The divisional application should set forth only that portion of the earlier disclosure which is germane to the invention as claimed in the divisional application.

### *Information Disclosure Statement*

2. Acknowledgment is made of receipt of applicant's Information Disclosure Statement (PTO-1449) filed August 29, 2003.

### *Drawings*

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the phrase **"forming a wirebond stud on an electrical contact surface located on a bottom surface of the optical package; applying an adhesive material to the wirebond stud"** as claimed in claim 1 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

4. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: The numeral "205" in Fig.6A is not mentioned in the description. Corrected

drawing sheets, or amendment to the specification to add the reference character(s) in the description, are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Allowable Subject Matter***

5. Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art reference, taken along or in combination, do not teach or render obvious that a method for attaching an optical device package to a semiconductor device package comprising:

Forming a wirebond stud on an electrical surface located on a bottom surface of the optical package; applying an adhesive material to the wirebond stud; placing the semiconductor device package on the bottom surface of the optical device package such that an electrical contact surface on the semiconductor device package makes contact with the wirebond stud and the adhesive material applied to the wirebond stud; and curing the adhesive material whereby the optical device package is firmly attached to the semiconductor device package.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
